

Overview

We would like to provide our customers with extra MCUs for development purposes. At present, we are offering **48-pin EasyPSoC MCU Cards** with different microcontrollers soldered on them. These cards are compatible with our EasyPSoC development system.

48-pin EasyPSoC MCU Cards provide easy connection to the development system through two 22-pin single in-line connectors. The bottom layer of these cards is provided with a ground plane for noise prevention.

CUSTOMIZATION: We can modify our products to suit your requirements, click [here for details](#).

MIKROE-44	MCU board with PSoc CY8C27643 Microcontroller
MIKROE-394	EasyPSoC MCU Card with PSoc CY8C27643

MikroElektronika Embedded Solutions

PIC Solution

- PIC Dev. Boards
- PIC Compilers
- PIC Programmers
- PIC Kits
- PIC Books

PIC32 Solution

- PIC32 Dev. Boards
- PIC32 Compilers
- PIC32 Programmers
- PIC32 Kits

dsPIC Solution

- dsPIC Dev. Boards
- dsPIC Compilers
- dsPIC Programmers
- dsPIC Kits
- dsPIC Books

AVR Solution

- AVR Dev. Boards
- AVR Compilers
- AVR Programmers
- AVR Kits

STM32 Solution

- STM32 Dev. Boards
- STM32 Compilers
- STM32 Programmers
- STM32 Kits

Tiva C Series Solution

- Tiva C Dev. Boards
- Tiva C Compilers
- Tiva C Programmers
- Tiva C Kits

8051 Solution

- 8051 Dev. Boards
- 8051 Compilers
- 8051 Programmers
- 8051 Books
- 8051 Kits

FT90x Solution

- FT90x Dev. Boards
- FT90x Compilers
- FT90x Programmers
- FT90x Kits

Additional Software

- Visual TFT
- Visual GLCD
- Package Manager
- GLCD Font Creator
- Timer Calculator
